

One glass subcontractor for every shower, mirror and glass wall you spec.

Quoted fast enough for your bid deadline, measured precisely, installed on the date you were given.

Maven Glass is owner operated by Eric McLaglen, who brings 33 years of glass experience across the trade, and works throughout the Triangle from a shop in Morrisville.

WHAT WE FABRICATE AND INSTALL

- **Frameless shower enclosures** and custom shower doors
- **Mirrors**, mirror walls and custom cut to size
- **Insulated glass units**, fogged and failed seal replacement
- **Window glass**, residential and commercial
- **Storefronts** and commercial glazing
- **Glass partitions**, vestibules, atriums, slope glaze
- **Emergency board up** and glass replacement
- **Auto glass**

Service area. Wake County primarily, plus Durham, Orange, Chatham, Johnston, Franklin, Lee, Nash, Harnett and Wilson counties.

WHAT YOU GET THAT YOU MAY NOT BE GETTING NOW

- **Rough quotes by phone**, fast enough to make a bid deadline
- **Critical measures inside a one hour window**, so your site super is not babysitting a four hour arrival block
- **Every unit checked when it reaches our shop**, so install day surprises do not become your delay
- **Clear lead times up front**, and a call the moment anything moves
- **A direct line to the people doing the work.** No call centre, no ticket number
- **Honest no.** If a spec will not perform we say so and offer the better option

HOW A JOB HANDS OVER

1 You call or send the plan Rough numbers by phone for bidding, same day where we can.	2 Critical measure On site once the substrate is ready. One hour window, not a half day.	3 Written confirmation Sizes, glass, hardware and finish in writing before anything is ordered.	4 Fabrication Made for your project and checked in at our shop.	5 Install On the scheduled date. Site left clean for your walkthrough.
--	--	---	---	--

THE FACTS YOUR ESTIMATOR WILL ASK FOR

LEAD TIME 1 to 15 days measure to install, project depending	WARRANTY 5 years product and labour	CREDENTIALS Licensed & insured certificate on request	ESTIMATES Free including trade and bid work
--	---	---	---

Why we front load the precision. Every piece is fabricated for one project and cannot be returned once it is ordered. That is exactly why the process above puts phone prequalification, a critical measure and written confirmation ahead of fabrication. Order changes cost money. Our job is making sure there are none.

Put us on your bid list.

One test project is all it takes. Call the shop and talk to the people doing the work.
